

PET GROOMING

MENU

Safe and clean, with a beautiful sheen!

Our highly trained grooming specialists use the latest technology to nourish your pet's overall health and condition in a safe, hygienic environment. All tools and towels are sterilized using a deep wash, heat disinfectant and ozone disinfectant system. Before grooming begins, we use a high-tech UV light to examine your pet's skin for any unusual conditions and ailments.

A unique bathing system ensures thick fur is fully penetrated to wash and clean the skin. We use delicate shampoos and conditioners designed for use on sensitive pet skin. All our pet-friendly products are animal-safe, natural and non-toxic.

Here at Pet Arabia, our dog and cat groomers are trained and certified by USA trainer Mr. Gabriel Feitosa, a renowned, internationally certified grooming trainer. Every pet is given plenty of time and attention, ensuring your pet is never rushed or stressed.

Regular grooming reduces the risk of infections, minimizes discomfort, keeps your pet smelling beautiful, and conditions their fur for a softer, more natural feel.

Hygienic Grooming Packages

All our grooming services are carried out by industry-trained professionals using safe, sterile techniques and state-of-the-art equipment, ensuring your precious pet is in excellent hands!

Express Grooming Package

Treat your pet to a relaxing soak in a warm bath, followed by a thorough brushing for a stunning, shiny coat from nose to tail. Every aspect of your pet's personal grooming is taken care of. We start with a gentle clean of the ears to remove wax and hair build up, followed by a quick trim around the face where stray hairs often tickle their delicate eyes or obstruct their vision. Paws are perfectly pedicured using the highest quality tools in a sterile environment. We'll clip and file your pet's nails to remove any discomfort and snip away the thick hairs between their paws to minimize the temptation for paw-licking. This reduces unsightly stains between the toes. Anal glands are neatly wiped and cleansed for a fresh smell, and your tidy pet is given a dash of sweet-smelling scent.

This weekly session is the perfect complement to your grooming routine, ensuring your pet always looks, feels and smells their best.

Signature Grooming Package

Bring out the best in your beloved pet with our Signature Grooming Package, designed to keep your pet happy, healthy and ready to show. Indulge in a warm bath, followed by a nourishing cleanse of the coat and skin. Your pet's fur is dried, brushed and smoothed to remove knots and matting, creating an all over sheen in the coat for a striking look.

We'll trim away excess hair around the eyes, ears and nose to highlight your pet's facial features and avoid any tickling or mild discomfort. Legs and paws are tidied to reduce stains and unwanted clumps of fur between the toes. A full or partial shave is available if desired. Ears are deep cleaned to remove wax buildup which minimizes the risk of infections, and the anal glands are thoroughly cleansed for a sterile, hygienic look and smell. Your pet's nails are clipped, shaped and trimmed for a smooth look that is comfortable for you and your gorgeous pet.

Grooming leaves your pet feeling relaxed and pampered. Their session concludes with a spritz of cologne, and a sweet-looking bow or bandana to complete the look.

The Royal Treatment Grooming Package

Elevate your pet's spa day with The Royal Treatment Grooming Package, curated to revive tired skin, reduce hair shedding, soothe their paws and leave your faithful companion feeling truly pampered.

Your pet's day begins with an organic, mineral-rich mud bath to soften their fur and reduce skin inflammation. This is complimented with a carefully selected shampoo that is personally chosen for your pet's unique health needs. We use all-natural, hypoallergenic products with anti-shedding or anti-itch properties, and specially formulated conditioner that nourishes the hair follicles for a smooth, shiny coat. The fur is brushed, groomed and trimmed, with exceptional care taken around the eyes and ears to remove wax buildup and stray hairs for a neat, comfortable look. Nails are manicured, and the anal glands are deep cleansed. Teeth are brushed, followed by a refreshing breath treatment for a sparkling smile.

Safe and clean, with a beautiful sheen!

Smelling fresh, your pet is spoiled with a deeply relaxing full body massage. Ease away their tension, release muscle strains, improve circulation and promote the release of happy hormones to stimulate their feelings of love and affection.

An optional complimentary fur coloring is included with The Royal Treatment Grooming Package. Fur coloring uses animal-safe, non-toxic, vegan coloring which should only be applied by a trained professional.
